Headline
IT Expert | Software Developer | Web Designer | Passionate About Modern Tech Solutions

About
I am an IT EXPERT with a strong focus on software development and web design. Skilled in building interactive, responsive, and user-friendly applications, I enjoy transforming ideas into functional digital solutions. My academic journey and hands-on projects have equipped me with expertise in HTML, CSS, JavaScript, and database management, alongside a growing interest in modern frameworks and design principles.

Driven by curiosity and a growth mindset, I continuously refine my skills through practical projects such as library systems, hotel management systems, and portfolio websites. My goal is to contribute to innovative software solutions while expanding my knowledge in full-stack development and emerging technologies.

Skills

- Programming: HTML, CSS, JavaScript
- Web Design: Responsive layouts, modern UI/UX principles
- Databases: SQL fundamentals, system design basics
- Tools: XAMPP, Code::Blocks, Git/GitHub
- Problem-Solving: Building interactive interfaces, debugging, iterative improvement

Experience (Projects)

- **Student Library Management Website** – Designed and implemented a database-driven system to manage book records and user interactions.
- **Hotel Booking Website** – Developed a functional application to streamline booking and customer management.
- **Portfolio Website** – Built a modern, responsive portfolio showcasing projects, skills, and interactive elements like image galleries and skill bars.

Education
Bachelor of Information Technology (BIT)
Kenyatta University

Interests

- Web development and portfolio building
- Software engineering best practices
- Emerging technologies and frameworks
- Continuous learning and mentorship
